

METHOD AND APPARATUS FOR GENERATING OXYGEN

ABSTRACT

A method and apparatus are provided for generating
5 Oxygen. Water-soluble chemicals are mixed in water, and the
result is medically pure Oxygen. The water-soluble chemicals
have long shelf-lives and are non-toxic, not an environmental
hazard, not a fire hazard, and not an explosive hazard. Once
the reaction is complete, the remaining waste solution can be
10 disposed of in a conventional waste disposal system with no
adverse affects. All of these attributes contribute to a
safe, compact, and easily usable Oxygen generation system.
